

FMM 80 DIAPHRAGM LIQUID PUMP WITH LINEAR DRIVE

ADVANTAGES

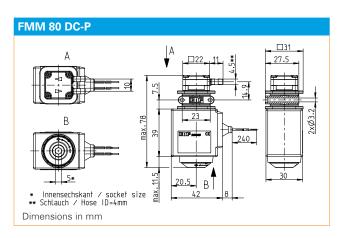

POSSIBLE AREAS OF USE

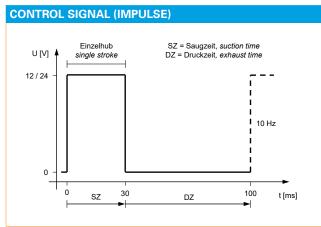

Please visit our website www.knf.com to get more information.

Series model	FMM 80DC-P		
Material options	KP	π	
Pump head	PP	PVDF	
Diaphragm	EPDM	PTFE	
Valves	EPDM	FFKM	
Nominal stroke volume (µI)	80		
Stroke volume calibration range (µI)	30-80		
Flow rate at 10 Hz (ml/min)	48		
Suction height (mWg)	4		
Pressure head (mWg)	10		
Permissible ambient air (°C)	+5 to +40		
Permissible liquid temperature (°C)	+5 to +80		
Weight (g)	210		
IP protection factor	54		
ELECTRICAL DATA			
Operating voltage (V)	12		24
Max. permissible frequency (Hz)	10		
l load max. (A)	2		1
Mean current consumption at 10 Hz (A)	0.42		0.21
Power consumption at 10 Hz (W)	5		

FMM 80 DC-P

PERFORMANCE DATA					
Series model	Nominal stroke volume	Flow rate at 10 Hz	Suction height	Pressure head	
	(µI)	(ml/min)	(mWS)	(mWS)	
FMM 80 DC-P	80	48	4	10	

ACCESSORIES				
Description	Illustration	Details		
Diaphragm pressure control valve		The pressure control valve can be used for a more accurate control of flow against a fluctuating back pressure, metering into a vacuum and from a pressurised system.		
Pulsation damper		This very versatile pulsation damper reduces the vibration in hoses ans pipes and it helps to remove pulsation which ist preventing the system from functionning correctly.		
Filter	X-6	KNF filters protect both pumps and other upstream instrumentation and hydraulic circuits against particulate, crystals and fibres which can improve optimum operation.		

The performance values for the series models shown on this data sheet were determined under test conditions. The actual performance values may differ and depend in particular on the usage conditions and therefore on the specific application, on the parameters of the components involved in the user's system and on any technical modifications carried out which deviate from the standard configuration or the as delivered condition.

If individual designs have been created for specific customers on the basis of series models, other technical performance data may apply

Before operation begins, the relevant operating instructions and/or assembly or installation instructions should be read and the safety information contained in these instructions should be noted.

KNF reserves the right to make changes to the product and the associated documentation without prior notice to the customer.
